

Constructive Training Services

Linxx Global Solutions

Linxx Global Solutions, Inc. (Linxx), a service-disabled veteran-owned business until the spring of 2015, has offices across the United States. Our growing business operations are managed from our corporate headquarters in Virginia Beach, Virginia. Over the last 9 years, Linxx has offered a wide range of educational, training, professional, and program management services around the world. We support all branches of the Department of Defense (DoD), the Department of State, the intelligence community, U.S. Department of Homeland Security, and other federal, state, and local agencies.

Realistic Exercise Support

Linxx provides comprehensive training and constructive exercise support to engage U.S. military and federal agency personnel in various opposing force scenarios to further refine their abilities to execute their missions upon deployment. We are experienced in recruiting, vetting, and contracting a variety of role-players who allow military and federal agency operators to practice their communication skills with the local populace and execute their tactical decision-making process. Exercises can include high-intensity, close-quarters battle training; the use of firearms, demolitions, and explosives; and air-supporting platforms. Linxx also has the ability to provide special and static effects support that enhances exercise realism and situational awareness for participants. If necessary, Linxx coordinates with outside entities throughout the duration of the exercise cycle to deal with various logistical tasks and ensure our compliance with local ordinances.

Constructive Training Services

Linxx has the expertise and capability to support the full implementation of a realistic exercise, including the following:

- Four years of exercise and role-player support to select JSOC units.
- Pre-deployment site survey and advance party support
- Scenario set-up, development, scripting, and rehearsal support
- Role-player support (e.g., recruiting, vetting, hiring, and supervision to ensure consistency with scenario objectives and safety)
- Material support (e.g., uniforms/costumes, red man weapons and suits, dog bite suits, actual weapons, etc.)
- Scripted intelligence, surveillance, and reconnaissance (ISR) movement
- Special and static effects support (e.g., smoke, squib shots, blank-firing rounds, moulage, rocket-propelled grenades, improvised explosive devices, and post-blast residue)
- Special unit support (e.g., specific terrorist group, maritime pirates, quick response force, elite guard force, snipers, etc.).

Summary

Linxx is a well-run, lean company with an excellent past performance record. The value we deliver to our customers can be summed up in one word: commitment. We are dedicated to improving the security of America and her allies through insightful analysis, creative product development, and exceptional customer service. To that end, we employ a large number of former service men and women who leverage their considerable experience and knowledge to accurately address the challenges facing our U.S. Government and corporate customers. In addition to these talented veterans, Linxx employs intelligent, business-minded professionals who understand program management, risk mitigation, and quality assurance. Our service offerings are divided into two categories: Security Services and Training Services.
