## Linxx Global Solutions

Linxx Global Solutions, Inc. (Linxx), is a mid-sized employee owned (ESOP) company with contract support offices operating in 11 U.S. locations across the United States. Since 2006, Linxx has offered a wide range of program management, educational, training, and security services to satisfied customers around the world. Linxx supports all branches of the Department of Defense (DoD); the National Aeronautics and Space Administration (NASA); the Department of Homeland Security (DHS); the intelligence community; and other federal, state, and local

## Security Service Support

Linxx provides comprehensive consulting, assessment, analysis, training, and direct security resources support for the DoD, NASA, DHS, DoS and many other federal agencies and corporations. We have extensive past performance successfully delivering security services associated with export control regulations (USML), U.S. Navy port force protection regulations, government research and development facilities, and a wide range of other security services and scenarios. Linxx employs a comprehensive client requirements process approach that allows us to quickly and accurately target key challenges and design practical risk mitigation strategies. Our services range from simple consultation to full turn-key security operational management.

- Cyber system, information system security software, and software integration

## Security Consulting

Linxx believes a solid security solution must be comprehensive, coordinated, and cost effective. The first step toward achieving these aims is to evaluate the threats, challenges, client expectations, and the physical and technical status quo. Security operations can be daunting when approached without a firm grasp on reality. A reality is comprised of validated risks, budget constraints, and external pressure to comply with industry norms and national security mandates. Linxx offers skilled, professional security advice

delivered in the form of consulting products or ongoing consulting services support.

## Security Specific Training and Exercise Support

Linxx delivers cutting edge security training across the United States and worldwide. Originally focused on maritime challenges, Linxx has broadened our base to include all types of infrastructure on land or at sea. We also provide exceptional service to commercial enterprises and corporate facilities. Linxx can assist our clients in assessing their level of competency against the context of their specific environment and mission. Training, education, and exercise support all combine to improve performance and increase an organization's return on their security investment.

## Security Focused General Contracting and Project Management

Our clients are often best served by engaging Linxx as a general contractor for security infrastructure installation and testing. We are adept at project management and believe a well-designed security risk mitigation plan deserves cost and time efficient installation/upgrade project execution. Linxx is capable of coordinating and communicating with all subcontractors and vendors in accordance with our client's detailed security master plan.

## Summary

**Linxx is a well-run, lean company with an excellent past performance record. The value we deliver to our customers can be summed up in one word: commitment. We are dedicated to improving the security of America and her allies through insightful analysis, creative product development, and exceptional customer service. To that end, we employ a large number of former service men and women who leverage their considerable experience and knowledge to accurately address the challenges facing our U.S. Government and corporate customers. In addition to these talented veterans, Linxx employs intelligent, business-minded professionals who understand program management, risk mitigation, and quality assurance. Our service offerings are divided into two categories: Security Services and Training Services.**
