Linxx Global Solutions

Linxx Global Solutions, Inc. (Linxx), a service-disabled veteran-owned business until the spring of 2015, has offices across the United States. Our growing business operations are managed from our corporate headquarters in Virginia Beach, Virginia. Over the last 9 years, Linxx has offered a wide range of educational, training, professional, and program management services around the world. We support all branches of the Department of Defense (DoD), the Department of State, the intelligence community, U.S. Department of Homeland Security, and other federal, state, and local agencies.

Security Services Support

Linxx provides comprehensive consulting, assessment, training and direct security services support for the DoD, all federal agencies, and large U.S. corporations. We have extensive past performance successfully delivering security services to include: provider of the U.S. Navy's counter-piracy training since 2006, ITAR sensitive inventory control in support of U.S. Army GWOT aviation initiatives, security assessment support for the 2004 Athens Olympics, armed security services for NASA, and several significant commercial client contracts worldwide. Linxx employs a comprehensive client requirements process approach that allows us to quickly target key challenges. Our offerings can be holistic and purchased turn-key or selected as needed.

Security Training and Exercise Support

Comprehensive Services

Linxx delivers cutting edge security training across the United States and worldwide. Originally focused on maritime challenges, Linxx has broadened our base to include all types of infrastructure on land or at sea. We also provide exceptional service to commercial enterprises and corporate facilities. Linxx can assist our clients in assessing their level of competency against the context of their specific environment and mission. Training, education, and exercise support all combine to improve performance and increase an organization's return on their security investment.

Security Training Support

Sound security is built on a foundation of professional training. Security awareness training for all people in an organization, in addition to unique training for guard force personnel, security technology operators, security leadership, is critical to success. Linxx has trained over 40,000 security professionals in all aspects of maritime and land based security operations. Training includes proficiency in all weapons, equipment, vehicles, and communications normally associated with professional security operations.

- Non-lethal and less than lethal technology
- Guard force procedures and planning
- Special security and communications equipment
- Security mobility (maritime and ground transport)
- Weapons safety and proficiency
- Security management (executive orientation through shift supervisor)

Security Exercise Support

Once a security team is trained and all security systems are effectively integrated, it is prudent to test and assess the overall security capability through the use of exercises. Exercises are scripted, tightly controlled events that illuminate weak points. They also highlight challenges in integration between various security systems and communications shortfalls. These events can be limited in scope to one system or include any or all of the integrated security elements. Exercises can be scheduled routinely, executed as no-notice drills, or test a facility against a specific corporate or U.S. Government standard.

- Security readiness exercises (comprehensive or by security system)
- Scenario based exercises (validation testing or threat driven)
- Incident management exercises (physical reality based or table top)
- Gap assessment in accordance with U.S. Government standards

Summary

Linxx is a well-run, lean company with an excellent past performance record. The value we deliver to our customers can be summed up in one word: commitment. We are dedicated to improving the security of America and her allies through insightful analysis, creative product development, and exceptional customer service. To that end, we employ a large number of former service men and women who leverage their considerable experience and knowledge to accurately address the challenges facing our U.S. Government and corporate customers. In addition to these talented veterans, Linxx employs intelligent, business-minded professionals who understand program management, risk mitigation, and quality assurance. Our service offerings are divided into two categories: Security Services and Training Services.
